Valory Co-Organizes Crypto x AI Hackathon at ETHCC

Valory co-organized Augment Hack, a decentralized AI Hackathon for ETHCC, alongside Ceramic, NEAR Protocol, Gnosis Chain, Ocean Protocol and StabilityAI.

It was a great success with >100 participants and dozens of teams, with up to $30,000 of prizes up for grabs.

At the end of Augment Hack, David Minarsch (Co-founder & CEO, Valory) and Martin Koppelmann (Co-founder, Gnosis) announced the Agent Predictions Hackathon.

If you're interested in the next hack at the intersection of crypto x AI, you can join here: http://hackathon.olas.network.
